WHAT'S THE 'FAIR CHANCES PROGRAM' ALL ABOUT?

FAIR Chances supports individuals and families seeking assistance in navigating daily challenges with familial harmony, adjusting to life after migration, or reuniting after experiencing stigmatizing justice system involvement.

FAIR Chances supports all York Region residents, but we prioritize space for those who identify as newcomers, members of the BIPOC community and those who identify as marginalized or criminal justice system barriered.

We offer this support through Counselling, Case Management, Workshops, & Community Outreach.
